

## Fully Integrated Smart Parking Ecosystem

Whether you work exclusively with IPS or need to aggregate multiple third-party solutions as part of your parking technology stack, the IPS Fully Integrated Smart Parking Ecosystem provides completely unified parking resource planning, management and data-driven decision-making power for any size operation.

### ONE TRUSTED PARTNER. ONE PROVEN SOLUTION.

IPS unlocks 360° Parking Management Solutions by combining perfectly seamless, real-time IPS application integration, and powerful business intelligence. All this, plus support from the most trusted leader in Smart Parking innovation.

- Optimize Parking Intelligence
- Rapidly Scale as Needs Evolve
- Future-Proof and Protect Your Investment
- Accomplish More with the Most Feature-Rich Technology

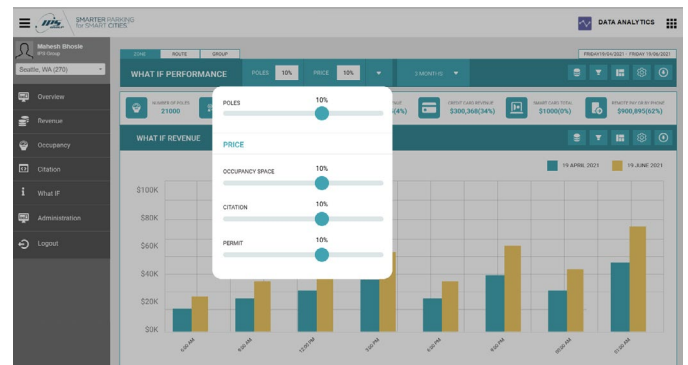

## IPS DATA MANAGEMENT SYSTEM (DMS)

At the heart of your parking operations, the DMS unifies all your data into a single back-end system. Comprehensive reporting, intuitive dashboards, advanced analytics, and business intelligence provide the most accurate measurement of your operational effectiveness.

- Make informed, data-backed decisions
- Unify all Smart Parking data sources
- Save time and resources through greater efficiency

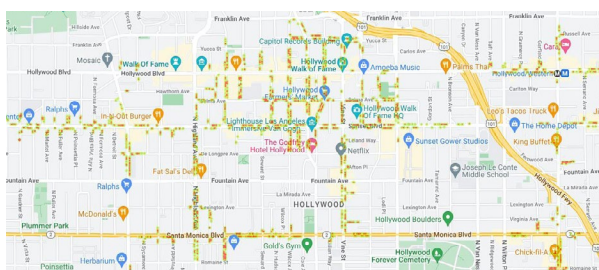

## MONITOR OPERATIONAL PERFORMANCE WITH ROBUST PARKING INTELLIGENCE REPORTING

The DMS provides a comprehensive library of financial, technical, and administrative reports. All reporting functions are accessed from an easy-to-navigate interface.

FROM DATE	TO DATE	Revenue	...
01/18/2020	01/18/2020	\$113,055	...
01/19/2020	01/19/2020	\$113,055	...

- Monitor real-time financial, operational, and maintenance data for all Smart Parking technologies
- Report on revenue, maintenance, inventory, assets, and more; filter by need, drill-down for granular reports
- Generate transaction summaries that can assist in citation adjudication
- Get real-time alerts: device health, power levels, occupancy and collections
- Notify maintenance staff in real time of meter faults by email or text message
- Configure demand-based rates, policies, display messages and more remotely

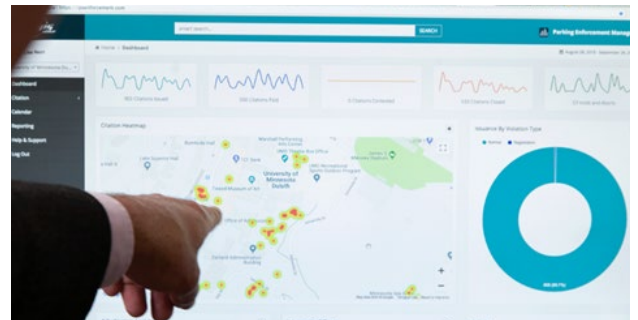

## GAIN GREATER CONTROL WITH CUSTOMIZABLE DASHBOARDS & DATA ANALYTICS

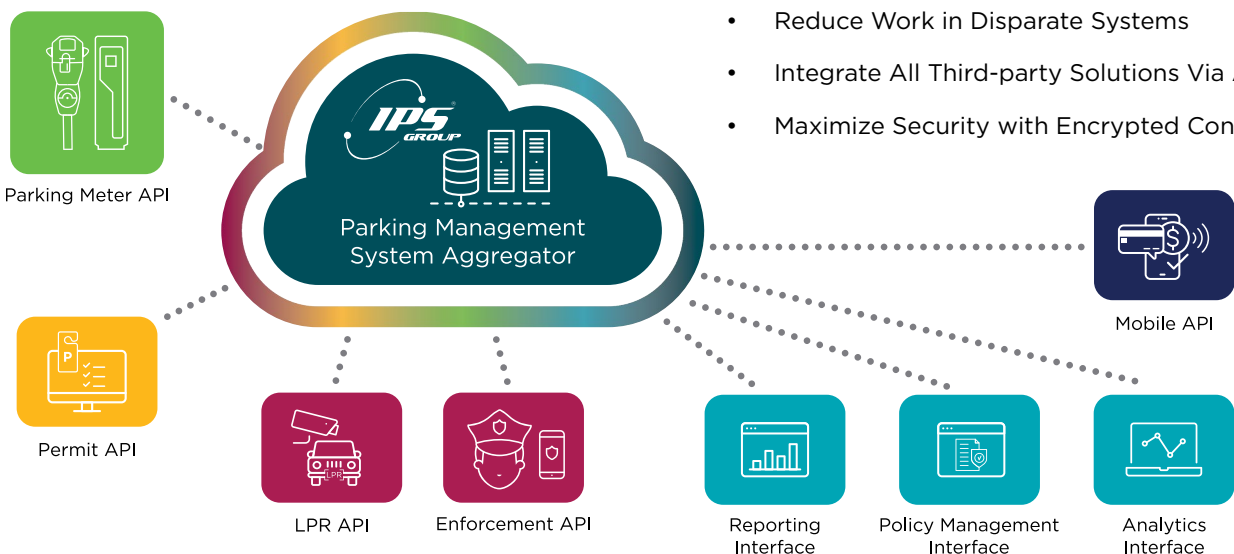

Make smart data-driven policy decisions with confidence. DMS Advanced Analytics guide operational decisions that increase revenue and efficiencies while improving the customer experience.

- Create visual reports in the form of charts, graphs, and heat maps (all export formats supported)
- Plan optimized routes for collections, enforcement, and maintenance teams based on real-time data
- Detect equipment and service issues proactively for faster response
- Customize dashboards to monitor your most important KPIs
- Monitor and track performance, occupancy, citation, and revenue trends

## AGGREGATE ALL THIRD-PARTY DATA SOURCES

Harness the power of your data sources with the IPS Parking Management System Aggregator. IPS combines fragmented sources of data into a centralized system for a unified view of overall program performance and revenue sources to drive more confident, data-driven decisions.

- Reduce Work in Disparate Systems
- Integrate All Third-party Solutions Via API
- Maximize Security with Encrypted Connections

## RESOURCE AND INVENTORY MANAGEMENT

As part of the Fully Integrated Smart Parking Ecosystem, IPS offers single sign-on (SSO) that saves you time and provides greater security with one login to access your entire network of intelligent business applications.

### TECH TOOLS

- Access all DMS reports and alerts from smartphone or tablet
- Track and log services with Work Order Management tool
- Generate customized fault list
- Manage configurations and swap RFID tags
- Identify spaces in violation using Guided Enforcement
- Track inventory and receive alerts when stock gets low

### RETURNS MANAGEMENT AUTHORIZATION (RMA)

- Enhance RMA process transparency
- Track returns and repairs status and shipment updates
- Obtain warranty information on entire parking meter inventory

### ON-DEMAND EDUCATIONAL RESOURCES

- Watch how-to video tutorials
- View or download digital user manuals
- Access FAQs and other guides

### METER SHOP

- Shop for new IPS meter products, spare parts, and more
- Get what you need faster and easier in a convenient ecommerce experience

All IPS systems are certified PCI-compliant. For information on other software applications that are part of the IPS Fully Integrated Smart Parking Ecosystem, including the Enforcement and Permit Management Systems, visit [ipsgroup.com](http://ipsgroup.com) or contact an IPS representative.
