

# MS3™ Multi-Space Pay Station

The MS3™ is the latest generation of IPS Pay Station solutions. Featuring a vibrant full-color display, touchscreen, merchant coupons, multi-language support and intuitive interface, the MS3™ provides the most convenient customer experience of any pay station on the market. Configurations and real-time parking data are accessed via the fully integrated, web-based Data Management System.

## KEY BENEFITS

**Flexibility:** Available in pay-by-plate, pay-by-space and pay-and-display; modular parts enable easy change of mode

**Durable Design:** Stainless-steel cabinet with weather and graffiti-resistant powder coating provides maximum longevity

**Customer-Friendly:** 7-inch active matrix, high-resolution color LCD display and touchscreen for intuitive user experience; My Parking Receipt™ digital receipts and license plate auto-population

**Security:** Separate maintenance cabinet and collection vault; cash box housed in vault with six-point and high-security lock system

**Unparalleled Power Efficiency:** Powered by environmentally friendly solar panel and rechargeable combination battery system

**Improved Visibility:** Blue LED lighting above the display enhances visibility; optional rear LEDs for visual enforcement (pay-by-space)

**Dependability:** 4G wireless communications to DMS; no additional communications hardware or software required

**Easy Maintenance:** Modular design built for technicians with easy plug-and-play maintenance

**Future-Proof:** Open interface for third-party application integration such as enforcement, permitting, LPR, mobile payment and more

**Contactless Payment:** Supports NFC / Contactless payments via the latest platforms; upgradeable to EMV-approved card readers

**Coupon Smarter™:** Convenient coupon program enables businesses to offer parking discount and validation codes to their patrons.

## TECHNICAL SPECIFICATIONS

**Weight:** 175 lbs.

**Dimensions:** 12.5" x 12" x 60"; MS3™ is compliant with all relevant standards for disabled access.

**Power:** Solar (standard) or AC.

**Temperature Range:** -22°F to 176°F; Optional heater (AC units only).

**Payment Accepted:** Multiple payment options are available including credit/debit card, coins, and contactless with Apple Pay® and Google Pay™, tokens and mobile payment apps.

**Cabinet Housing:** Uni-body construction. High grade corrosion-resistant stainless-steel with weather and graffiti-resistant powder coating.

**Locks:** Cabinet is protected by a six (6) point secure locking system. The outer vault door locks are protected by anti-drill spin disks. Upper and lower housing require separate keys. The stainless-steel collection vault features a T-bar and dual-locking system. Electronic locks available upon request.

**Display:** 7-inch active matrix color, touch screen (configurable), allows for both alpha-numeric or graphical messages. Display is protected by anti-glare coated bonded glass.

**Printer:** High-resolution graphic thermal printer allows for customizable graphics, vouchers, and barcodes, which are programmable from the Data Management System (DMS).

**Coin Box:** Exchangeable coin box with auto-close feature on removal and "Smart" sensing technology to provide additional security and auditability.
