

## Meter-Bagging is Now Digital

IPS introduces the IPS Curbside Reservation System, which transforms the outdated manual meter bagging process with digital on-street parking meter reservations for various needs like food trucks, construction, nonprofits, and more.

- Allocate curb space digitally and customize rates to meet specific needs
- Customers can reserve curb space with a click of a button
- Leave behind the hassle of spreadsheets
- Track revenue and data in an online portal

IPS simplifies and automates every process stage through a unified, user-friendly system. Furthermore, this system enhances the customer experience by enabling easy, online requests at the click of a button - no more time-consuming visits to City Hall.

With digital meter bagging, you not only streamline operations but also optimize curb space allocation, unlocking the potential to increase revenue. The smart shift to digital meter bagging also results in substantial annual cost savings by allowing resources to be used more efficiently.

CUSTOMER INTERFACE

FULLY INTEGRATED

ROBUST REPORTING

## ADVANTAGES

**Streamline Your Operations:** Rely on one system for complete digital meter bagging and curb space request management—no more managing spreadsheets or juggling multiple processes.

**Tailor Your Program:** Customize policies, rates, and requirements to ensure fair curb access and align with your specific needs and objectives.

**Harness Data for Success:** Utilize your data to make informed policies that boost revenue and enhance the value of high-demand curb space.

**Enhance Customer Satisfaction:** Provide a user-friendly website that enables reservations and document uploads in just a few simple clicks.

**Optimize Traffic Flow:** Reduce congestion by implementing a straightforward system for business, special events, and short-term project space reservations.

**Integrate Seamlessly:** Connect seamlessly to IPS Fully Integrated Smart Parking Ecosystem, and third-party applications.
